

Lizerna Breeze

Softener with long-lasting fresh scent

- Properties:**
- the special perfume will even withstand higher drying temperatures
 - long-lasting, pleasant scent, also for the customer
 - dermatologically proven
 - unique formula
 - provides a distinctively soft, supple handle
 - good antistatic effect on blended fabrics
 - high affinity to the fibre
 - even suitable for woollen fabrics

Application:

Depending on the requested effect

For a soft handle and a descent fresh fragrance

0.3 - 0.6% related to the weight of textiles (3 - 6 ml/kg textile) into the last rinsing bath (0.46 - 0.92 fl oz/10 lbs)

For a distinctive pleasant scent, even after the dryer

0.7 - 1.5% related to the weight of textiles (7 - 15 ml/kg textile) into the last rinsing bath (1.07 - 2.30 fl oz/10lbs)

The application of warm water (30 - 40 °C / 86 - 104 °F) intensifies the effect.

Technical Data:

| | |
|-----------------------|-----------|
| Density 20 °C (68 °C) | 1.00 g/ml |
| pH-Value (conc.) | 4.5 - 5.5 |

Hints:

Storage

Lizerna Breeze is sensitive to frost and should not be stored at temperatures below 5 °C (41 °F).

Irreparable damage to the product is possible.

The product can be stored for at least 12 months in its original sealed packing.
